

An Overview of Speech, Language & Communication Needs in Secondary Settings

There are significant numbers of students in secondary settings with unidentified (and often unmet) speech, language & communication needs, that...

...make it difficult to access the curriculum

...impacts on future life choices

...can make it hard to develop successful social relationships

It's never too late to do something to help!

Learning outcomes

By the end of this session, participants should:

- Have a greater awareness of the different areas of speech, language and communication
- Have an awareness of the essential skills required within the communication chain
- Know about the range of speech, language and communication difficulties typically seen in older students
- Know about the impact of having speech, language and communication difficulties
- Feel more confident to identify students who present with SLCNs in secondary settings
- Have an understanding of the different levels of support school and SALT can provide to meet the needs of students with SLCNs
- Have been introduced to a range of practical strategies to use in the classroom to support student's speech, language and communication skills
