

WellComm Primary Workshop

Wellcomm Primary follows the familiar format of the Early Years toolkit. Training helps maximise the benefits of the toolkit by...

...looking at what other language interventions are available & where they fit with Wellcomm Primary

...discussing wider considerations such as additional diagnoses or EAL

...building in practical activities to support practitioners to bridge the gap between setting a target & delivering the intervention

Learning outcomes

By the end of this session, participants should:

- know why it is important to identify children who have SLCN
- understand how Wellcomm Primary fits with other language interventions, and which children will benefit
- know how to administer and score the screening tool and be able to decide what to do following screening
- understand the principles of planning group interventions including activities to meet a specific target

Why book Soundswell Wellcomm training?

A number of the original Wellcomm (EY) research team of therapists now work with Soundswell. They know the kit inside out and recognise that staff will benefit from knowing more about how (and why) to group children, when to move them on as well as how to make the most of the data collected.

Who should attend	KS2 mainstream staff		
How to attend	Book for your school or your consortium Contact office@soundswellspeech.com		
Number of participants	Up to 15	Duration	Half-day

N.B: Evidence shows best outcomes are achieved when settings incorporate continuous coaching & mentoring. Let us know if we can help with this.
