

Soundswell Working in Mainstream Schools: EYFS, KS1 & KS2 [SWIMS]

SWIMS is a course for Speech & Language Therapists working in mainstream schools with EYFS, KS1 & KS2

This highly interactive course will give participants a greater understanding of the national context and recent developments in the field of SLCN, whilst supporting them to deliver interventions in mainstream settings

Learning outcomes

By the end of this session, participants should have a greater understanding of:

- have a thorough knowledge and understanding of the cycle of communication and its component parts
- have a greater knowledge of methods and tools useful when screening for and identifying SLCN
- have a greater knowledge of a range of interventions that can be used
- have a wider understanding of the resources available and ways to use them flexibly to support SLCN at all levels of the pyramid of intervention
- be aware of how to measure impact, and why this is important
- have increased confidence to deliver, and advise about suitable intervention approaches

“The team found it very helpful - it’s really encouraged them to reflect on their roles within mainstream schools. Thank you for being so supportive with our therapists - your kindness and insight made such a difference, and it’s clear how much everyone valued your input.”

Sarah Buckley Therapies Ltd
