

# WellComm Early Years (Enhanced) Workshop

Wellcomm is a tried and trusted universal tool to support the development of speech and language in the early years. It enables settings to take ownership of speech, language and communication for every child, adding value where skills are developing normally and identifying problems at the earliest opportunity.

## Learning outcomes: by the end of this session, participants should...

- understand why early identification of speech, language & communication needs is so important
- be confident to carry out screening (lots of opportunities to practise)
- be confident to group children effectively
- be ready to get interventions underway at the earliest opportunity
- understand how Wellcomm works with children for whom English is not their first language
- know how to collect and use data to track progress and inform decision making and make comparisons

## Why book Soundswell Wellcomm training?

A number of the original Wellcomm (EY) research team of therapists now work with Soundswell. They know the kit inside out and recognise that staff will benefit from knowing more about how (and why) to group children, when to move them on as well as how to make the most of the data collected.

<b>Who should attend</b>	EY & KS1 mainstream staff, either new to Wellcomm or looking for a refresher. Also has some application at KS2.		
<b>How to attend</b>	Book for your school or your consortium (several staff attending together can support each other with implementation) Click the “Book Today” button or contact via <a href="mailto:office@soundswellspeech.com">office@soundswellspeech.com</a>		
<b>Number of participants</b>	Up to 15	<b>Duration</b>	Half-day
